Womb as Humanity's First Ecology

A Global Healing, Learning and Living Gathering

Thank you for saying yes to this living gathering and for joining an expansive global community that believes healing the world begins with healing our first environment: the womb.

Womb as Our First Ecology is more than a webinar series. It is a space of dialogue, healing, and collective re-imagination where we reclaim ancient wisdom about our shared humanity.

We are deeply honoured to walk this journey with you.

What You Can Expect

Each month we will gather with scholars, healers, artists, birth workers, and community leaders from Africa and across the world to explore the womb as humanity's first ecology. Every session invites learning, reflection, and embodied practice.
